

CLASS FACILITATORS

We would like to give class participants the opportunity to serve as facilitators of that portion of our class sessions in which we bring water leaders to share with us about water leadership challenges and opportunities, typically the 11:45—12:45 agenda slot. Your role will be to work with us and the guest leader prior to the session to frame up the presentation/dialogue, and to facilitate the dialogue during the session. Depending on the level of interest we will likely have 2 or even 3 of you serving as facilitators for each session.

Please put your name below any of the monthly topics that particularly interest you. (You may choose more than one, perhaps ranking them, 1st, 2nd, 3rd choice.)

We will use this information to identify facilitators for each session now, so that you have time to work with us as we plan ahead for these sessions.

November 9—Agricultural Water Use

Glenn Ledall, Tony Miller, Gage Osthoff

December 14—C-BT and Windy Gap Water and Special Districts (Domestic Water Providers)

Kristie Melendez, Leah Johnson

January 11—Environmental Concerns
